

Dear Ben and Colin,

We are camped here at Lake Macquarie in our new Freetime, and we're just loving it! The Mercedes is wonderful to drive, and so easy that Janeene even had a drive around the caravan park in it the other day! (and she never drove the Ford Transit Eclipse in 4 years!) Bit by bit we are working out how to use all the "technology" in it, and after a few hours on the first day we even worked out how to turn the radio off (technically challenged grey nomads!)...thanks for your phone call the other day Ben to let us know why the Tom Tom was locked...we've got that sorted now and are happily using it rather than our portable one. The barbeque has been christened and is excellent, and the kitchen has been given the "thumbs up" by chef Robert Moline from Tallavera Grove Estate where we went to the wedding on Saturday night (see pic).The interior is so comfortable...not a back-ache in sight! Everything about our new motor home is superb!

Well done you guys!

Please feel free to send us some pamphlets and business cards which we can give to those who are interested.

Regards,  
Janeene and Chris, and Tij and Tini
